A stunning range of stylish finger safe aluminium frame garage doors with a wide selection of composite inserts for you to match with your home.

---

## **Stylish, safe and durable.**

Steel-Line's innovative Custom Collection of garage doors offer you over one hundred choices. Simply choose the style that matches the façade of your home, choose your frame colour and then match the insert to create a look as individual as you are.

Your finished garage door will look architecturally inspired, and for a small premium, we can powdercoat your frame in any colour and glaze with customised inserts.

With Steel-Line's finger safe extrusion, you can rest assured that not only will your new garage door be stunning to look at, it has improved safety for you and your family.

## Insert Panel Aluminium Frame Selection

Steel-Line offer a stunning range of stylish FingerProof™ aluminium framed garage doors. You can choose from a wide selection of inserts or any compatible custom material to match with your design. Create the look that you want to customise your building to suit your surroundings.

### Polycarbonate Multiwall

Lightweight with unrivalled strength and durability.

The multi-walled nature reduces heat, is UV rated and is translucent.

Perfect for allowing natural light into your garage without compromising security.

### Acrylic

Strong, translucent, UV protected solid Polycarbonate sheets.

Perfect for natural light with next to no visibility into your garage. Combined with lighting in your garage, this can become a prominent feature of the home.

### Aluminium Composite Panel

Light weight, high strength and stiffness.

The aluminium composite panel door is available in both aluminium framed design and face fixed design.

### FingerProof™ Safety Design

Steel-Line's Custom Collection aluminium sectional garage doors feature a curved finger proof joint for added safety. This unique design not only safeguards your family against serious injury, it also seals out elements that can penetrate conventional aluminium garage doors. For added safety you can also install a photo eye beam as an optional extra.

# 3 easy steps to create your FingerProof™ aluminium framed garage door

## STEP 1: select a design

ALUMINIUM FRAMED | 1 SECTION

ALUMINIUM FRAMED | 2 SECTIONS

ALUMINIUM FRAMED | 3 EQUAL SECTIONS

ALUMINIUM FRAMED | QUARTER-HALF-QUARTER

ALUMINIUM FRAMED | 4 SECTIONS

ALUMINIUM FRAMED | 5 SECTIONS

**NOTE:** The number of panels is determined by the height of the opening <2440mm (H) = 4 panels; >2450mm (H) = 5 panels.  
 The maximum width of the "1 section" door is 2400mm, if the inserts are aluminium composite panels, acrylic, Western Red Cedar or aluminium treadplate.  
 The maximum width of the "2 sections" aluminium composite door is 4800mm. Outside of these configurations, check with your Product Consultant on price and availability.

## STEP 2: select aluminium frame colour

## STEP 3: select inserts

## Face Fixed Aluminium Frame Selection

The face fixed design is laying the aluminium composite panels over the frame for that architectural look. The aluminium composite panels are the premier choice for an exterior cladding that will maximize the beauty of the structure while providing a sustainable product to prolong the life of the building.

Despite being conveniently lightweight, these aluminium composite panels certainly aren't pushovers. They have impressive durability and strength, making them well suited to bearing the tough conditions of the Australian climate. They are also vibration-absorbent which will assist to reduce the noise in your garage.

## 2 easy steps to create your face fixed aluminium framed garage door

### STEP 1: select a design

ALUMINIUM COMPOSITE | 1 SECTION

ALUMINIUM COMPOSITE | 2 SECTIONS

ALUMINIUM COMPOSITE | 3 EQUAL SECTIONS

ALUMINIUM COMPOSITE | QUARTER-HALF-QUARTER

ALUMINIUM COMPOSITE | 4 SECTIONS

ALUMINIUM COMPOSITE | 5 SECTIONS

**NOTE:** The number of panels is determined by the height of the opening <2440mm (H) = 4 panels; >2450mm (H) = 5 panels. The maximum width of the "1 section" door is 2400mm. The maximum width of the "2 sections" door is 4800mm. Outside of these configurations, check with your Product Consultant on price and availability.

### STEP 2: select aluminium frame colour (Please refer to the back of this page)

### STEP 3: select aluminium composite panel colour

Aluminium Composite Panel - Metallic Silver
